Application

✎ Fill Out

Welcome to your admissions progress page!
Please check back frequently to view your progress throughout the admissions process.

22. Once application has been submitted, and application fee of \$25 paid, give the system a day or so to assign a contract to your student
23. Contracts will NOT be emailed to you. You will need to log back into the system where you will see a contract has been assigned approximately 24 hours after submitting the application.
24. After logging back in to Blackbaud use this link:
<https://sikhacademy.myschoolapp.com/app#login> to view and submit the contract and associated payment.

***Please note, that if the system asks you to go back and fill out a required field that you missed, it will not auto-update even after you have filled it in. Please resubmit the form (go to end) to see if the system accepts the application and resolves the error.

***At times the platform can be “buggy”, please refresh screens or page back and resubmit to resolve errors you may see.

The application was tested on an iPhone and Android and although it was able to be fully completed, (including the picture upload and payment) the process was much more challenging.

***When filling out application, there is an associated Application Fee of \$25 per student. This is distinct from the Enrollment/Tuition Fee.

On the application, you will have the opportunity to choose your Enrollment/Tuition Fee (\$1000, \$550, \$350), after which a contract will be assigned and emailed to you. The standard fee for SAGE is \$550 (one time cost), however you can choose to pay more or less.

Once the contract has been sent back with the Enrollment/Tuition Fee, your student(s) have been enrolled, though confirmation of enrollment will come later based on timing of this application. (At times we have had to place students on a waiting list if enrollment exceeds capacity).

If the contract is NOT sent back with the Enrollment/Tuition fee paid, then your child has NOT yet secured a spot at SAGE.

All contracts MUST be completed and returned before the start of SAGE.
